EagleArabia

Structual and Air Duct works

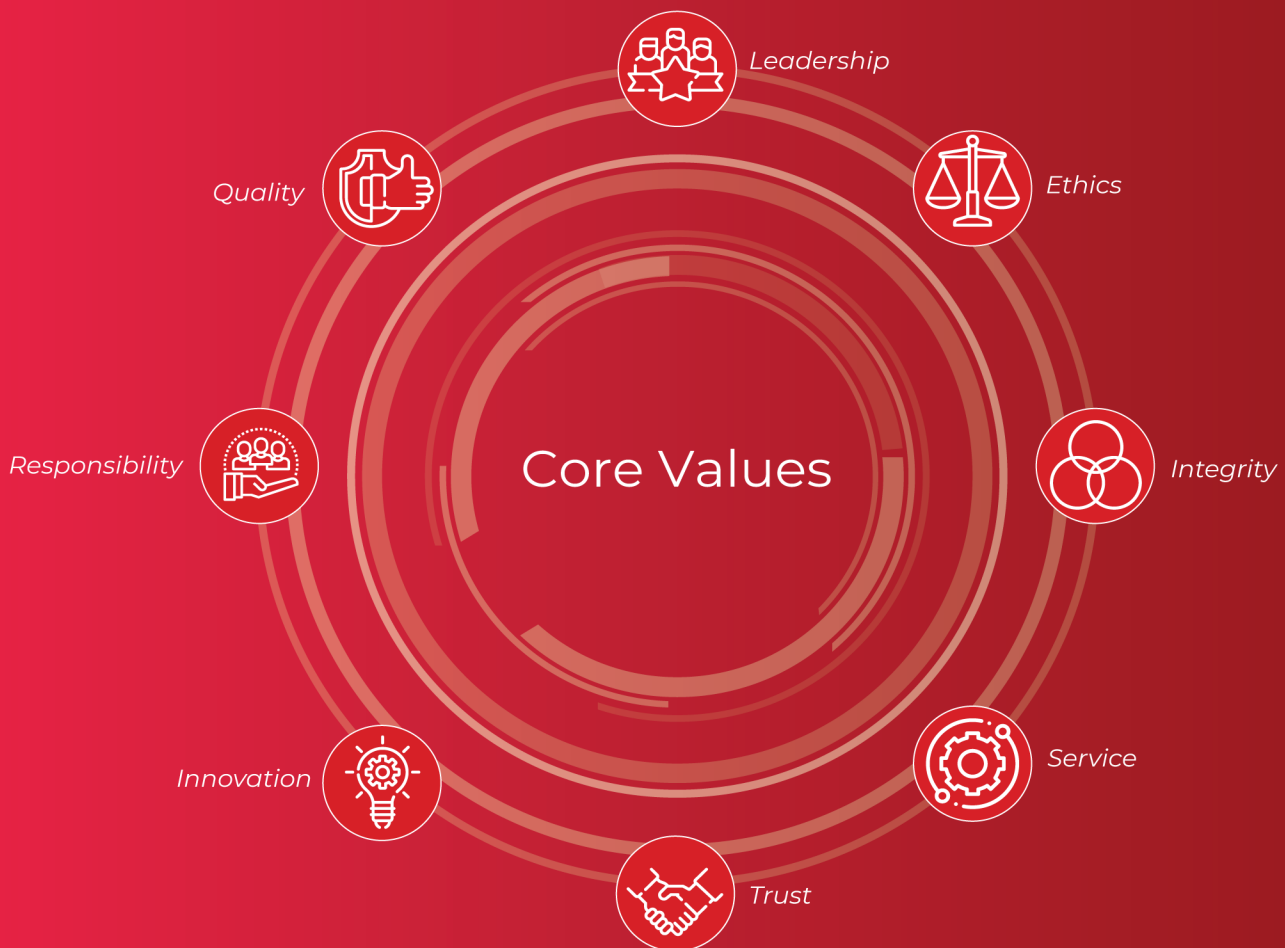

About Us

We are a company leading in steel and aluminium fabrication, air duct fabrication and other industrial works. EagleArabia is committed to meet international quality standard among the top manufacturer of structural steel frames, air duct, beams and miscellaneous steel structures in the Middle East. We care in quality and is assured and maintained to the highest. Also we try to position ourselves at the heart of steel industry. This lead us to valuable goals for you. We believe what makes us different makes us stronger. Building a more diverse, inclusive, and equitable organization is good for our teams, our clients, and our community. We empower each other to bring unique perspectives and experiences to work, and we continually seek new ways to do so.

Mission & Vision

To be the preeminent provider of superior Mechanical services by consistently improving the quality of our product; to add value for clients through innovation, foresight, integrity, and aggressive performance; and to serve with character and purpose that brings honor to God. We work together to design, create and produce quality service that we are proud of for team that we believe in. We are always available for your needs in a wide range of distinct disciplines for a variety of mechanical services.

Our Services

EagleArabia services are focused offerings to support you through each stage of your industrial journey - from pilot to production. From out of the box offerings to customized packages, our Services are designed for you to realize the value of your Mechanical needs quickly, painlessly, at a lower cost and with peak performance. EagleArabia is specialized in design, fabrication and installation of structural steel and air duct works for industrial buildings, plant structures, workshops, ware houses etc.,

HVAC services

Our Heating, Ventilation & Air Conditioning services carries a variety of reliable and high-quality options.

Mechanical Structural works

Our detailed engineering works include top notch Design, Fabrication and Installation of Structural steel works

Manufacture of stainless, carbon, aluminium, galvanized steel based Rectangular/Round Ducts and fittings

Manufacture of steel platforms including handrails, ladders, conveyers and levellers

Volume Control Damper, BDD, Plenum Box, Sand Trap Louver, Access Door, Kitchen Hood, Sound Attenuator and Variable Air Volume

Manufacture of stainless, carbon, aluminium, galvanized steel, fabrication of tanks, pipings, skip, hoppers, cooling coil

Manufacture of Double wall Ducts and Fire Rated Ducts and Fittings

Plate Cutting and Bending, Rolling all of Welding works

Design, Manufacture and Installation of heat exchangers, pressure vessels, vertical & horizontal storage tanks etc.,

Fabrication and erection of warehouses and architectural facades

Product Showcase

We believe our products are what makes us different and makes us stronger. Building a more diverse, inclusive, and equitable product is good for our clients, and our community

Structural products

Condensers

Industrial Chimney

Heat Exchangers

Steel Ramps

Ladders

Skip

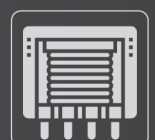

Rails

Shed

Flanges

Transformer tank

Steel beams

Cooling coil

HVAC products

Ducts

Double wall

Elbow

Offset

Take off

Dampers

Plenum box

Technology

With more than 20+ machines in the structural/Air duct works, EagleArabia, a mechanical service provider, has set the standard for manufacturing custom-designed needs at the highest levels of quality and value. Our highly experienced team and latest machines has led the industry in manufacturing quality products for the most demanding industries and applications.

Cutting Machines

Bending Machines

Drilling Machines

Milling Machines

Lathe Machines

Welding Machines

At our Factory, we have a spacious facility complete with cutting machines, Oil flushing units, welding equipments and fabrication machinery. Our advanced system bases and structural steel are fabricated in our facility, and we can test equipment up to 400 horsepower on-site, as well as provide pneumatic, hydraulic and flow testing. Our in-house products of structural bases, platforms/supports, air ducts allows for custom components in less time and while saving costs.

Integrating a custom solution, such as packaged mechanical products, into a process can be complicated and time-consuming, but choosing the right company to partner with can make it much easier. At Eagle Factory, we have the expertise needed to help clients smoothly integrate control systems into their Industrial workflow

Trusted by the world's best

We work with industry-leading partners to engineer efficient, high-quality solutions that reduce risk, create competitive advantage and enable our clients to grow their businesses today and tomorrow. EagleArabia's Mechanical solutions helped them overcome challenges specifically whether it's peaking, plummeting or anything else in between
